

RYA Diesel Engine Course

The aim of the course is to give an awareness of the main system of a diesel engine and the ability to take simple measures to prevent mechanical breakdown at sea and rectify defects which do not require workshop support.

The course covers:

- The four stroke cycle
- The fuel system
- The cooling system
- The air systems
- Engine electrical systems
- Spares and tool requirements
- Importance of winterisation and servicing
- Fault finding

Tea & coffee is provided throughout, lunch is taken (at your cost) in the Yacht Club.

We can provide the following book which is the recommended companion to the course.

**RYA Diesel Engine
Handbook – Andrew
Simpson. Includes a DVD
£16.99**
