

RYA Powerboat Level One

This is a one day course that can be considered as a 'Introduction to Powerboating' or perhaps even a 'Competent Crew' type course. In a hectic day your instructor will cover subjects that include:

- Picking up and securing to a mooring buoy
- Leaving and coming alongside
- Being towed
- Launch & recovery
- Preparation of boat
- Boat Handling

We also make sure that we spend time on man over board practice too to ensure that if this ever happens then you can assist.

You will be on your course with a maximum of 2 other students with the Instructor so you will get a good amount of time at the helm. We aim on these courses to be on the water 90% of the time.

Note: Generally the most common course for those starting out in powerboating (particularly for those with their own boat or intending getting their own boat) or those needing an ICC (International Certificate of Competence) is the Powerboat Level 2 Course. There is no need to have Level 1 before undertaking Level 2.
